WHAT IS ERASMOBILITY?

- Erasmobility is a meeting point, a tool to facilitate connections amongst vocational training centres throughout Europe who are seeking to organize exchange practices.
- The platform is based on the principle of placement exchange between vocational training centres, in order to enable mobility for students within the EU.

WHAT PROBLEMS DOES IT INTEND TO SOLVE?

- Difficulties finding companies abroad that require vocational students for temporary work placements.
- Lack of knowledge about vocational training among countries within the European Union.
- Difficulties managing accommodation and maintenance while student mobilities take place.

The contribution Erasmobility can offer

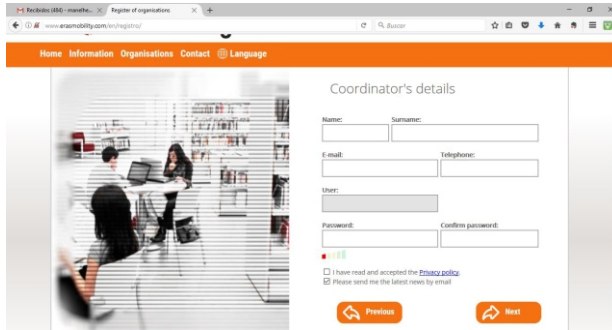

- Reciprocity as a warranty of **quality**.
- It allows companies to find similar institutes that suit their requirements, with a mutual understanding **of the needs of vocational students**.
- It gives students the chance **to share experiences**, through workshops or formative activities, with students who are attending the same training in the selected country.
